The Honorable Rosa DeLauro
Ranking Member
House Appropriations Committee
1036 Longworth House Office Building
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

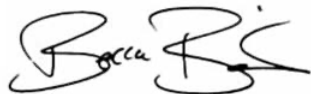

I am requesting funding for the Little Rivers Health Care Bradford Clinic Expansion Project in Fiscal Year 2027. The entity to receive funding for this project is Little Rivers Health Care, Inc. located at 4628 Main St., Newbury, Vermont, 05051. The funding would be used for expansion of clinic space for behavioral health and care management services; development of a community-based urgent care and health access site; and acquisition of a vehicle to support delivery of mobile services to rural communities across the region.

The project is an appropriate use of taxpayer funds because it will help build a more sustainable rural health system by shifting care to lower-cost, community-based settings that are better aligned with the needs of Vermont's rural residents.

The project has a federal nexus because the funding provided is for purposes authorized under the Public Health Service Act.

I certify that neither I nor my immediate family have any financial interest in this project.

Sincerely,

Becca Balint
Member of Congress
